Terry Smith
PCL Constructors Canada Inc.

Mr. Terry Smith,

Congratulations you have won the Mac iPad offered at the 2010 CanSia Solar Conference! Thank you for taking the time to drop by our booth and enter Bothwell-Accurate's draw.

Here at Bothwell-Accurate we are actively interacting with solar providers, builders, engineers, roofing membrane manufacturers and other construction professionals to better understand solar arrays and how they can be integrated to the roof surface. By doing so we know we will be able to offer our customers the absolute best solutions and installations for rooftop PV Solar installations now and in the many years to come.

As the Ontario solar market continues to expand due to the OPA's Feed-In Tariff plan there are sure to be many exciting and challenging builds ahead. We hope that you will keep in touch with us for any PV solar rooftop applications you or your customers may need assistance with in the future and wish you all the best in Ontario's burgeoning solar landscape!

Kind Regards,

A handwritten signature in blue ink that reads "K. Vassallo". The signature is fluid and cursive.
